# Product Specifications

## Features and Benefits

---

Infinity Screens provide exceptional insect protection without impacting the appearance or design of the building.

- Remains out-of-sight until needed
- Allows full ventilation, providing protection from insects
- Blends seamlessly with the décor of the building
- Allows screening of large openings with limitless pull distances
- Enables easy access between each 3 ft. panel
- Features durable pleated mesh technology
- Features low profile bottom rail (1/8")
- Offers smooth and safe operation
- Delivers superior quality and easy clean design
- Opens spaces to outdoor living and allows more natural light into the building
- Provides additional peace of mind with the backing of a Limited Lifetime Warranty (excluding mesh & tension wire).

## Components

---

- Slide bar, housing, and track made from high-quality aluminum
- Anodized finish resists fading and chipping
- Sturdy, UV resistant plastic fittings
- Polyester mesh ensures enhanced durability

## Sizes

---

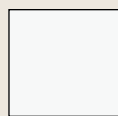

The Infinity Screen - or any portion of it - can be easily opened at any of its connection points and slid to the side. The maximum number of panels is virtually unlimited, restricted only by structural steel constraints.

Style	Height	Max width single
Single Panel	39 3/8" to 110 1/4"	19 1/16" to 39 3/8"
Multiple Panels	39 3/8" to 110 1/4"	Unlimited

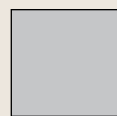

## Colors\*

---

Infinity Screens come in 3 standard aluminum color options as shown below. Plastic parts are available in black finish.

White

Bronze

Dark Bronze
