

# The Koppersmith Home

*Phantom's motorized screens maximize indoor and outdoor living in Mobile, AL*

*"Quite often homeowners do not realize the full potential of their homes — by installing Phantom's motorized screens on the back porch we have extended the time homeowners are able to spend outside even during hot Alabama summer months."*

*— Danny Lipford, builder*

- LOCATION:** Mobile, Alabama
- STYLE:** Classic Tudor
- BUILDER:** Lipford Construction
- PRODUCT:** Phantom Executive™ motorized retractable screens
- MESH TYPE:** Sheerweave 2360
- NEED:** Sliding glass doors were installed between this home's back porch and family room to open the house to the outdoors. The owners needed a screen to comfortably enjoy the space without having to worry about the heat or unwanted bugs.
- SOLUTION:** Phantom's motorized screens provide protection from solar heat and insects while keeping their view of the backyard.

## OVERVIEW

Located in Mobile, AL, the Koppersmith Home combines 1920's charm with modern day luxuries and amenities. As part of a renovation, the homeowners installed sliding glass doors between the back porch and the family room to let in fresh air and sunlight.

Phantom's motorized screens were installed to create an outdoor living space that is protected from bugs and heat while keeping the views to the outside. When a completely clear view is desired, the screens can easily retract into their housings and out of sight.

## APPLICATION HIGHLIGHTS

### UV protection

The Sheerweave 2360 mesh keeps out up to 90% of the strong UV rays maintaining a cooler temperature in the living area.

### Easy operation

The screens can be lowered by the simple press of a button on a remote control or smart phone.

### Out of sight when not in use

The tracks and housings of the screens are recessed into the porch columns, allowing the screens to be fully retracted out of sight when not in use.
