

# The Ultimate Garage

*Phantom's motorized screens keep a glorified garage cool in Los Angeles, CA*

*“Phantom’s motorized screens retract into cavities designed above the openings, completely hiding them from view. This way the screens don’t distract from the design of the garage.”*

- LOCATION:** Los Angeles, California
- DESIGNER:** Holger Schubert
- PRODUCT:** Phantom Executive™ motorized retractable screens
- MESH TYPE:** SheerWeave 2360 mesh
- NEED:** Renowned architect and car expert Holder Schubert needed a screen to keep his luxury garage cool while blending in with the space’s modern design.
- SOLUTION:** Schubert mounted Phantom’s motorized screens on the exterior of the garage’s windows to help reduce solar glare and provide shade from the sun.

## OVERVIEW

In 2009, Holger Schubert claimed first place in Maserati's Ultimate Garage competition with a space he designed specifically for the contest. The 1,200-square-foot man cave houses Schubert's 1984 Ferrari 512 BBi Boxer and looks out over a beautiful yard in Los Angeles, CA.

To keep the space cool without taking away from the architecture or view, Schubert installed Phantom's motorized screens. The screens stop heat from entering the room through 16 foot glass windows making it a perfect place to retreat in the hot afternoons. In the evening and cooler seasons, the screens retract completely out of sight at the touch of a button.

## APPLICATION HIGHLIGHTS

### Enjoy the view while keeping cool

Phantom's motorized screens provide shade and block out heat from the sun while keeping the view to the outdoors.

### Control solar glare

The screen's mesh absorbs glare and maintains a comfortable level of interior light.

### Complements any space

Phantom's motorized screens retract into cavities designed above the openings, completely hiding them from view. This way the screens don't distract from the modern design of the garage.

## PRODUCT FAST FACTS

- Custom made, professionally installed
- Motorized screen - retracts vertically
- In-wall or hand-held remote controls
- Weighted slidebar
- Custom color options (including wood grain finishes)
- Mesh, fabric & vinyl options for insect protection, sun control & climate control
- Optional sun and wind sensors

	WIDTH	HEIGHT
4" Housing	26" to 120"	Max 96"
5 1/2" Housing	34 3/4" to 240"	Max 132"
7 1/8" Housing	34 3/4" to 300"	Max 192"
