MOTORIZED SCREENS WITH CLEAR VINYL

Using clear vinyl with motorized screens by Phantom Screens enables you to control the temperature in your outdoor living space without blocking your view. In cooler climates it's designed to keep the warmth in and for hotter climates it's perfect for keeping cooled air in your covered porch or patio area.

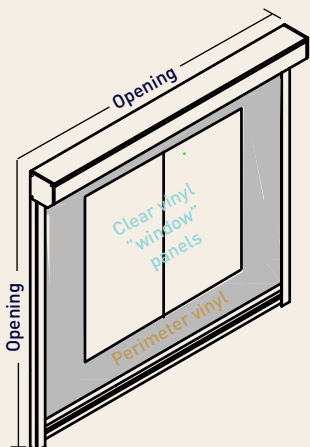

Thanks to our motorized screens with clear vinyl, you can now spend more time in your outdoor living space without being limited to only two seasons!

FEATURES & BENEFITS

- Provides temperature control without blocking views
- In cooler climates, it's designed to keep the warmth in and for hotter climates it's perfect for keeping cooled air in
- It protects patio areas from rain, wind and debris
- Provides up to 90% UV protection
- In-wall or hand held remote controlled
- Flame resistant and self-extinguishing
- Can be integrated with automation systems and environmental sensors for ease of use and convenience
- Enhance the functionality of outdoor spaces by extending their usage in all seasons
- Pressed vinyl panels ensures no hazy blueness, fish-eye, dimples or distortions
- Clear vinyl panels joined to clear vinyl panels – no fabric strips between "windows"
- Clearest, most consistent vinyl available
- Dimensionally stable for superior operation
- Industry leading warranty*

*Please note that the warranty excludes the vinyl itself
