Executive Team Expansion

Unlike conventional fixed screens, Phantom's screens won't get in the way of your view — they retract completely out of sight when not in use.

**[Phantom Screens®](#) is North America's leading provider of retractable screens. Phantom Screens offers insect protection, solar shading, temperature control and enhanced privacy for standard doors, oversized door systems, windows, and covered outdoor spaces.**

Phantom's retractable screens bring comfort to indoor-outdoor spaces and remain hidden out of sight until they're needed. The energy efficient product design enables homeowners to lower electricity costs by reducing solar heat gain, allowing passive cooling and helping to retain climatized air, whether cool or warm.

Every Phantom screen is backed with a Limited Lifetime Warranty for added peace of mind. Since its beginning in 1992, the Phantom brand has been synonymous with quality, innovative product development, and superior customer service.

Phantom Screens is a Registered Provider with the American Institute of Architects Continuing Education System (AIA/CES), and a member of the NAHB's Leading Supplier Council.

## Cable guide system - motorized screens

Phantom's motorized screens retract vertically and completely out of sight when not in use to restore fully open views and maintain beautiful curb appeal.

### What is it?

Phantom's cable guide system is the newest option available with our family of motorized retractable screens. This is in addition to our existing track system we've made and installed for decades. The subtle cables keep the exterior solar shades in place on windows, glass walls and structures with open corners where there are no posts or columns for a track system. The unique self-tensioning technology of this system, hidden away in the roller housing, helps keep the cables taut in varying outdoor conditions to reduce the need for maintenance.

### What are the key product features?

- Fits openings as wide as 25 feet and 11 feet tall OR as tall as 20 feet by 9 feet wide
- Features a self-tensioning cable system, hidden out of sight in the roller housings or recessed ceiling cavities

### What are the benefits?

Energy Savings

Curb Appeal

Self-Tensioning

Versatile

Secure

Smart Control

Turnkey Installation

Durable

Celebrating the best in design innovation and home comfort

**Abbotsford, B.C. (February 19, 2019)** – Phantom Screens, North America’s leading manufacturer of retractable screens, selects Mom’s Design Build as the 2018 Impact Award winner.

The Impact Award celebrates residential design and building professionals who integrate Phantom’s products to deliver innovative designs that set them above the rest. Impact Award winners, both past and present, have proven their commitment to enhancing the lifestyles of homeowners by integrating Phantom’s products into living spaces in order to deliver added comfort and value to the home.

Mom’s Design Build’s submission is the quintessential design of blended living spaces which features a second storey wrap-around porch which has been enclosed with Phantom’s products to extend living spaces. This fully retractable outdoor space features cooking stations, dining areas and additional seating in order to expand and maximize on the home’s living spaces. Mom’s Design Build utilized two Phantom products to improve the home’s livability. Phantom’s Manual Wall Screens were used to promote quick and easy access in and out of the space, while the Motorized Wall Screens were used to enclose the remaining areas of the structure to maintain comfort and usability in changing outdoor conditions.

"I couldn't be more thrilled to announce Mom's Design Build as our 2019 Impact Award Winner," said C. Esther De Wolde, Chief Executive Officer of Phantom Screens. "This inventive design creates a fully retractable outdoor enclosure with Phantom Screens, making it a comfortable space year-round regardless of bugs, hot sun, or cool weather."

"I couldn't be more thrilled to announce Mom's Design Build as our 2019 Impact Award Winner" - C. Esther De Wolde, CEO of Phantom Screens

"We have found that our clients highly value the control and flexibility that automation offers through Phantom Screens," states Jim Sweeney, Founder and Chief Executive Officer of Mom's Design Build.

Mom's Design Build was selected by a panel of judges based on criteria focusing on design, creativity, market appeal, liveability and product integration. The winner also receives recognition on booth signage at this year's NAHB International Builders' Show in Las Vegas, NV, a full-page advertisement in a selected publication, an in-depth case study featuring the winner's submission and a dedicated feature on Phantom's corporate website.

# The New American Remodel® 2019

This year's The New American Remodel® (TNAR) 2019 aims to bring sustainable building techniques and green living to light through energy efficient products and design that have been newly introduced to the housing market. Engineered and designed by Luxus Design Build, LLC, Luxus has selected vendors to assist in achieving their energy efficiency goals in addition to those who are simultaneously capable of complementing the home's unique and modern design. The home, which has received overwhelming acknowledgements this year, was unveiled at the 2019 International Builders' Show in Las Vegas, NV.

Engineered and designed by Luxus Design Build, LLC.

## Product features & project description

Phantom Screens' products were selected for TNAR in order to support the home's goal of sustainable and green living. As more homes seek to blend indoor and outdoor living, this home's design and construction provided an ideal canvas for highlighting natural elements and blended living to bring warmth to the space.

Phantom's products were implemented throughout TNAR with the primary goal of acclimatizing the home to changing Las Vegas temperatures. Phantom's motorized screens were implemented along the covered outdoor dining lounge, the second storey outdoor entertaining space, guest rooms and master suite. Through Phantom's energy efficient product designs, they were selected to provide shade in the warmer months and heat retention in cool evenings. The home's open concept design allows for a seamless transition between indoor and outdoor living spaces. The enhanced privacy, energy efficiency and minimalistic aesthetics led Phantom Screens to become an ideal vendor for the project.

Phantom's customizable products enabled them to service this unique home by fulfilling openings which cover up to 40 feet wide and 11 feet high, or 25 feet wide and 16 feet high, and are capable of disappearing out of sight when not in use.

### Phantom's motorized screens key product benefits:

- ✓ Seamless transition between indoor/outdoor living
- ✓ Enhanced air circulation and heat retention (energy efficient)
- ✓ Insect protection
- ✓ Added privacy
- ✓ Minimalistic design, adding to the home's curb appeal
- ✓ Customizable sizing for various openings

## Phantom Screens expands executive team with new key positions

**Abbotsford, B.C. (January 23, 2019)** – Phantom Screens, the leading provider of retractable screens in North America, is pleased to announce the expansion of the executive team, recruiting a Chief Financial Officer, Ralph Berzins, and a Chief Revenue Officer, Rod Terry, to help drive business growth in 2019. The Company has grown significantly over the past few years with the expansion of their manufacturing warehouse and the addition of 30 employees to their workforce.

Rod Terry joined Phantom Screens as the Chief Revenue Officer in November 2018 bringing vast experience in executive management. Terry previously held the position as President of Creekside Customer Foods and the President and Chief Executive Officer at Larosa Fine Foods Inc.

In August 2018, Ralph Berzins joined Phantom's executive team as the Chief Financial Officer bringing extensive experience driving business results for national organizations. Prior to joining Phantom Screens, Berzins held the positions as the Vice President of Finance for Serta Simmons Bedding Canada and the Vice President of Financial integration for Office Max based in Chicago, IL.

"I am thrilled to expand our executive team with the addition of Rod and Ralph," comments C. Esther De Wolde, Chief Executive Officer of Phantom Screens. "With their respective experiences and seasoned approach to growing and scaling notable brand companies, I am excited to work with them and the rest of the Phantom team to take our products to new markets and continue to deliver exceptional service to our current customers."
