NEED:	Tony and Michelle love spending time outdoors, but found the sun too bright to enjoy their balcony space. They also love the cooler months, and wanted the solution to work with their outdoor fireplace.
SOLUTION:	Phantom's motorized retractable screens help these homeowners enjoy their outdoor space even when harsh sun is out. They can now dine, entertain and enjoy their space in the hot and cold months

"The south-west sun heats up the patio space so we just lower the screens to keep things cool. We're excited to have them in the fall with our outdoor fireplace. They're a lifesaver!"

OVERVIEW

Tony and Michelle are great lovers of the outdoors, and that means dealing with all the annoyances and challenges that the great outdoors brings. From harsh sun to the crisp, cooler months, these happy homeowners were looking for an outdoor space for their home that could be transformed into a tranquil retreat with all the goodness of the outdoors, with the perks of inside.

With the addition of motorized screens, they can now keep out the sun to protect their home from the sun and heat while entertaining outdoors. Their cozy fireplace adds to their ambiance in the cooler months, and with the screens down, helps to retain the heat so they can enjoy every sip, every good story, and every sigh of relief.

APPLICATION HIGHLIGHTS

Customizable Comfort for Any Space

Fits Your Vision: We craft custom screens to perfectly match your living space, regardless of size, color, or material.

No post, no problem: The self-tensioning technology helps keep the cables taut so you can add them to any project without side supports. Mount to the wall or floor to unleash unlimited possibilities.

Industry-leading Warranty & Professional Installation: We stand proudly behind our stance on “never DIY, always WDIFY” (we do it for you). We know what we’re doing, we’ve had over 30 years to work out all the bugs (literally).
