## OVERVIEW

Sarah and her family were dreaming of more time spent outdoors without pesky bugs invading their space. As big believers of calming fresh air, they can now lower the screens with ease and enjoy the outdoors with the perks of inside, all thanks to Phantom's motorized screens.

This patio space with custom made motorized screens blends seamlessly into Sarah's home. From the old-growth forest beams to the sleek modern railings, these Phantom Screens disappear when not in use to never disturb the home's design or the surrounding views.

And the install? As seamless as the screens. "We barely noticed them" Sarah explained, because we're there when you need us and gone when you don't.
